

All superscript numbers (Example: Description<sup>1</sup>) correspond to important notes at the bottom of this page.

<p><b>Initial Visit/New Patient Consult Code(s):</b></p> <p>99241-99245 or 99201-99205</p>	<p><b>Established Patient/Follow Up Code(s):</b></p> <p>99211-99215<sup>1</sup></p>
--	---

**Important Notes:**

1. Request Follow Up code range plus CPT codes as ordered by physician.
2. Neurosurgery is considered a “High Risk” clinic meaning appointments should not be scheduled unless there is a diagnosis, pending referral, or clinical notes stating what the patient is being referred for. You can verify diagnosis by looking in the patient’s chart, in the media tab, in a pending referral or by calling patients PCP’s office. Also please check appointment notes to verify what the patient is being seen for. Diagnosis should match the reason for visit.

Shunt adjustments/reprogramming -	New: 99201-99205, 62252
	Ret: 99211-99215, 62252
